

# Engaging Gifted Learners Through **BRAIN BITES™**

## Creative Brain-Energizing Activities Designed to Teach 21<sup>st</sup> Century Skills- One Bite at a Time!

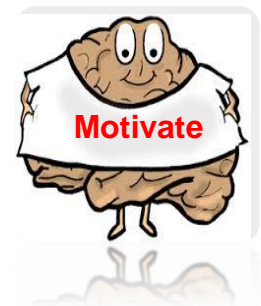

- ✓ Brain Bites™ is a creative brain-energizing differentiated student choice program designed to **engage, motivate, challenge** and supplement a gifted resource or high potential program. It focuses on assisting students in exercising and developing brainpower.

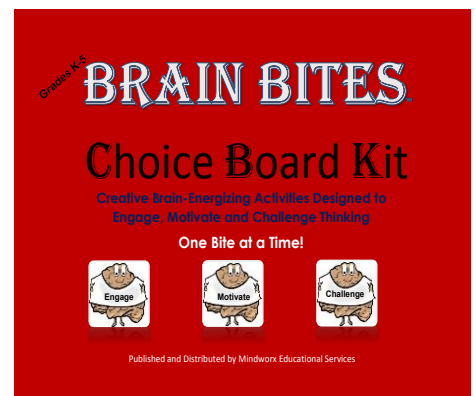

- ✓ The activities in Brain Bites™ allow teachers to **differentiate instruction** to accommodate gifted learners. The skills are interdisciplinary and can be taught in any content area across the curriculum.
- ✓ Each activity in Brain Bites™ revolves around concepts' learning targets and state standards and employs **flexible pacing** that allows students to learn at a pace and level appropriate to their abilities and levels.

- ✓ The activities on the choice boards place an **emphasis on rigor, greater depth, complexity, and pacing** in the curriculum with skill development in research, communication skills, critical thinking skills, creativity, problem solving and collaboration.
- ✓ Students are provided with choices, and **structured parameters** to work within. Through Brain Bites™ students are fully involved, curious about finding answers to real questions, taking initiatives, and enthusiastic about learning.
- ✓ Brain Bites™ activities includes both **subject and content areas** and are designed to develop skills in critical thinking, communication, research, vocabulary and comprehension, memory and general knowledge in content areas.
- ✓ A number of the activities in Brain Bites™ parallel standardized test items and **provide practice** in the specific thought pattern and reasoning required by such tests.
